

BRINGING

Church and Family Together

Ministry to the family is perhaps the most impactful yet time consuming pastoral ministry churches face today.

The Birth of a Family™ program offers a unique opportunity for churches to participate in the founding and strong growth of Biblical households. We seek people from the church to become trained Family Coaches who accompany Birth of a Family clients through the seven session course.

Through their participation with Birth of a Family programs, churches are enjoying powerful opportunities in the ministry of the Gospel such as:

- Engaging in ministry outside their own walls
- Serving their own communities
- Helping their own congregations found and grow strong Biblical households
- Introducing Birth of a Family clients to new church homes

Birth of a Family is a powerful and effective way for your church to reach those truly in need of what the Body of Christ has been made steward. Your purposeful investment of disciple makers in the Birth of a Family program will:

- Reap generations of redeemed families
- Engage many new laborers in the harvest
- Profoundly impact your communities
- Instill Biblical discipleship at the household level

The need is great, the opportunities are numerous, the laborers are few, but the rewards are miraculous.

The success of the Birth of a Family program is dependent upon the Body of Christ engaged in its great commission.

Please contact us to learn more about Birth of a Family partnerships in your community.
